## Other Projects

- Figma Clone using Nest.js :**

Jan 2024

I built this minimalistic Figma clone with features like live collaboration with multiple cursor chat, comments, reactions, and drawing designs (shapes, image upload), download design in PDF. It is built with Next.js, TypeScript, Tailwind CSS, Liveblocks, Fabric.js, Shadcn.
- Portfolio & Blog using Nest.js :**

Dec 2023

I built this website to showcase my talents and blog. It's a responsive website built with Next.js, TypeScript, Tailwind CSS, and Sanity. I deployed it on Vercel with my custom domain. It has a content management system and achieved a 95% performance score on Lighthouse.

[Live Site](#)
- Anime Recommendation:**

Feb 2024

This is my personal project, an anime recommendation system that uses collaborative filtering to suggest anime to users based on their similarities with other users. I utilized an anime dataset from Kaggle and built the system using NumPy, Pandas, and TensorFlow. It's capable of predicting anime recommendations through both item-based and user-based approaches.

## Areas of Interest

- Data Structures and Algorithms
- Web Development

## Technical Skills and Certifications

---

- Programming Languages : C++, Python, Java, TypeScript
- Web Technologies : HTML, Tailwind CSS, Sass, Node.js, Express ,React.js, Next.js,
- Version Control : Git
- Database : MySQL, MongoDB
- Other Software : VS Code, MS Office, Filmora

## Non-Technical Skills

---
